

Center Policy for COVID-19

1. We no longer require in-person participants to be vaccinated.
2. Please do not attend class if you have a fever or feel unwell.
3. Help protect others by washing your hands with soap or using hand sanitizer.
4. You are welcome to wear a mask for further protection.

Thank you for your understanding and patience as we gradually reopen our Center and establish pandemic protocols which may change as circumstances and national/state guidelines change.

We are trying our best to keep everyone safe while also finding ways to cultivate community and engagement.
